**SAN LEON MUNICIPAL UTILITY DISTRICT
SERVICE AGREEMENT**

- I. **PURPOSE.** The San Leon Municipal Utility District is responsible for protecting the drinking water supply from contamination or pollution which could result from improper plumbing practices. The purpose of this service agreement is to notify each customer of the plumbing restrictions which are in place to provide this protection. The utility enforces these restrictions to ensure the public health and welfare. Each customer must sign this agreement before the San Leon Municipal Utility District will begin service. In addition, when service to an existing connection has been suspended or terminated, the water system will not re-establish service unless it has a signed copy of this agreement.
- II. **PLUMBING RESTRICTIONS.** The following undesirable plumbing practices are prohibited by State regulations.
- A. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by an air-gap or an appropriate backflow prevention device.
 - B. No cross-connection between the public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the installation of an air-gap or a reduced pressure-zone backflow prevention device.
 - C. No connection which allows water to be returned to the public drinking water supply is permitted.
 - D. No pipe or pipe fitting which contains more than .25% lead may be used for the installation or repair of plumbing at any connection which provides water for human use.
 - E. No solder or flux which contains more than 0.2% lead can be used for the installation or repair of plumbing at any connection which provides water for human use.
- III. **SERVICE AGREEMENT.** The following are the terms of the service agreement between the San Leon Municipal Utility District and Customer.
- A. The Water System will maintain a copy of this agreement as long as the Customer and/or the premises will be connected to the Water System.
 - B. The Customer shall allow his/her property to be inspected for possible cross-connections and other undesirable plumbing practices. These inspections shall be conducted by the Water System or its designated agent prior to initiating new water service; when there is reason to believe that cross-connections or other unacceptable plumbing practices exist; or after any major changes to the private plumbing facilities. The inspections shall be conducted during the Water System's normal business hours.
 - C. The Water System shall notify the Customer in writing of any cross-connection or other undesirable plumbing practice which has been identified during the initial inspection or the periodic re-inspection.
 - D. The Customer shall immediately correct any undesirable plumbing practice on his/her premises.

- E. The Customer shall, at his/her expense, properly install, test, and maintain any backflow prevention device required by the Water System.
- IV. RECREATIONAL VEHICLES. A copy of Galveston County completion certificate showing compliance with County drainage guidelines must be presented to the District prior to connection to District facilities.
- V. ENFORCEMENT. If the Customer fails to comply with the terms of the Service Agreement, the Water System shall terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expenses associated with the enforcement of this Agreement shall be billed to the Customer.

ADDENDUM TO APPLICATION FOR WATER AND SEWER

The undersigned customer(s), who is/are applicant(s) for water and sewer services from San Leon Municipal Utility District represent(s), by his/her/their signature(s) on the document that the rules of San Leon Municipal Utility District allow one (1) residence of any kind to be connected to one (1) sewer and/or water tap. The undersigned customer(s) represent(s) that he/she/they will not allow any additional connections from any other structure, dwelling, recreational vehicle, mobile home to the District's system.

The undersigned customer(s) further understand that, if this agreement is violated, the District has the right to immediately disconnect the water and/or sewer service, and that the customer(s) will be required to pay additional water and/or sewer tap fees for each additional unit connected to the District's system.
